## Description

Eastern AHEC invites you to participate in live case consultation. These monthly sessions will give primary care providers an opportunity to strengthen their confidence in the management of children and adolescents with mental health concerns. Providers will be able to present a case and get feedback from Dr. John Diamond, Head of Child and Adolescent Psychiatry in the Department of Psychiatry and Behavioral Medicine at East Carolina University. Participation is free, but you must register in advance. You may attend every session or attend the sessions that work with your schedule.

The submission of cases for presentation and feedback is essential to enhance knowledge and confidence in caring for children and adolescents with mental health issues in your primary care practice. This is an opportunity for participants to discuss a challenging patient or complex clinical picture with an expert in child psychiatry. Participants are asked to present a case for discussion and feedback. A case presentation form is required and should be submitted one week in advance to [childmh@ecu.edu](mailto:childmh@ecu.edu). The form is a fillable PDF that can be completed electronically. You will receive written feedback approximately one week after the consultation session.
